The Police Investigating Several Cases of Disappearance.

Seven Men and a Girl Mysteriously Missing From Their Places of Abode in This City-All Efforts to United States Steel Issues. Locate Them So Far Fruitless.

in a week the list of strange departures or disappearances has grown, until eight or disappearances has grown, until eight persons are now away from home, leaving anxious friends to search for them. One case is that of a printer, formerly employed at the Government Printing Ortice A thousand circulars were sent out protracted him, and others will fellow. No word has come from William J. McKenna, thirty years of age, who lived with Alphonse Bogia, the War Department messenger, at 684 R Street northwest, nor has anything yet been heard of Lula Wilson, sixteen years of age, whose disappearance from the home of her sister, Mrs. Tuttle, 615 H Street southwest, appears most mysteri-

The missing printer is Samuel C. Hanlon, about forty-five years of age, whose home has been for a time with his daughter, Mrs. Richard Arnold, at 627 Sheridan Street northwest. Late on the afternoon of July 10 Hanion took his departure, and his destination appears a decided mystery. It was thought he intended going to Richtoond, Va., to engage in business, but enquiry has developed that he never reached the Virginia capital. Time went reached the Virginia capital. Time went by and no word came from Hanlon, either ot his wife, who spent several days fol-lowing his departure at Annapolis, Md., or to his daughter, Mrs. Arnold, whose husband is employed as a motorman by one of the street car lines. Nothing was thought at first of the silence on the part of Hanlon, but anxiety gradually caused enquiry by friends to learn something of his whereabouts. Letters were written to relatives in the South, but the replies which came to hand failed to throw any light on the case. Not until yesterday morning were the police informed of the case, and then the search for Hanlon be-

It was learned that the printer had more than \$600 in his possession when he disappeared, and this fact alone has served to suggest the theory of foul play. Friends of Hanlon say he is not a drinking man, and that his habits have always been steady and above reproach. No trouble of any kind is even hinted at by near relatives, and the police are at a loss what to say of the absence of the printer.

Less than a year ago Hanlon was in the Government Printing Office, where he is credited with saving considerable mon-ey. On leaving the office, Hanlon looked about for a suitable opening, and Richmond, Va., appears to have offered such a chance as that for which he was waiting. Accordingly he decided to go there. Enquiry about the railroad depots has been made by the police without any trace of the missing man being developed. It is thought probable he has left the city, and with this belief circulars containing Hanlon is under great strain because of her husband's absence, and the attending uncertainty.

### HARD TO BREAK.

"I was a coffee user from early childhood, but it finally made me so nervous that I spent a great many sleepless nights, starting at every sound I heard and suffering with a continual duil headache. My hands trembled and I was also troubled with shortness of breath and palpitation of the heart. The whole system showed a poisoned condition and I was told to leave off coffee, for that was the cause of it. I was unable to break myself of the habit until some one induced me to try Postum Food Coffee.

The first trial, the Food Coffee was flat and tasteless and I thought it was horrid stuff, but my friend urged me to try again and let it boil longer. This time I had a very delightful beverage and have been enjoying it ever since, and am now in a very greatly improved condition of health.

My brother is also using Postum instead of coffee and a friend of ours, Mr. W., who was a great coffee user, found himself growing more and more nervous and was troubled at times with dizzy spells. His wife suffered with nausea and indigestion, also from coffee. They left it off and have been using Postum Food Coffee for some time and are now in a perfect condition of health." Grace C. meer husband's absence, and the attending uncertainty.

The circular sent out by the police describes Hanlon as follows:

"Missing from his home in this city, Samuel C. Hanlon, forty-five years of age, five feet seven inches tall, slender build, red face, black hair, dark mustache, navy blue suit, white straw hat, black low shoes; is a printer by trade."

At the home of Alphonse Bogia last night Mrs. Bogia told a reporter that nothing was known of William J. McKenna, for five years a resident of the house. Every effort has been made to find McKenna, who started out a week ago to day for Trinidad, in search of employment. It is known McKenna is a sufferer from brain trouble, Mrs. Bogia says, he having been overcome by the heat on several occasions in recent years. Prior to last fall McKenna was a faithful employe of the Baltimore and Ohio Railroad, but he was compelled to resign on account of ill-health. Since he has been out of work.

"What has become of McKenna? I do "Samuel C. S. 4's, R. 1925. 1274, 138 U. S. 5's, C. 1998, Q. F. 1099, Q. ## Another Great Suit Sacrifice.

But we write an accompanying chapter—stronger even than the first—that affects every small lot, (six or less), of the FINEST SUITS IN THE HOUSE. Suits that are marked, and have been selling at \$20, \$22.50, and \$25. And we put them on sale tomorrow morning

For Choice at 1

This includes fine imported Pin-check Worsteds-Cheviots of many stylish patterns-a lot or two of Fancy Flannels-and some plain Serges and Cheviots, some of the former faced with silk. That there are so few of a lot bespeaks their popularity. Of course, they are cut in the best favored styles-Military and plain Sacks, Double-breasted Sacks, and English Walking Cutaways.

Need we resterate? Not an old style Suit in the lot-but every Suit is OURS-of regular stock-

Let us be very clear in our statement—these are the lots of which but six or less Suits remain of the grades up to and including \$25. In one or another you can find a fit surely—anybody can.
